

# Maui Island Water Use and Development Plan DRAFT

JUNE 2017

OLA NĀ MEA A PAU I KA WAI  
*By Water All Things Find Life*

Prepared By:  
Maui County Department of Water Supply

## ACKNOWLEDGEMENTS

Alan Arakawa, Mayor  
Keith Regan, Managing Director  
Dave Taylor, Water Director  
Gladys C. Baisa, Deputy Water Director

### DEPARTMENT OF WATER SUPPLY, WATER RESOURCES & PLANNING DIVISION

Eva Blumenstein, Planning Program Manager  
Pam Townsend, Water Resource Planner  
B. Alex Buttaro, Water Resource Planner  
Alexander De Roode, Water Resource Planner  
Lori Delbello, Staff Services Assistant

#### **Diacritical Disclaimer:**

Due to technical challenges with different software/web browser abilities to interpret Hawaiian diacritical markings, not all were utilized in the WUDP. For example, the okina is used wherever appropriate, but the kahako is not used, due to its frequent mistranslation in various software potentially utilized. This mistranslation between disparate software can render words indecipherable. Although incomplete diacritical markings of Hawaiian words add a degree of linguistic inaccuracy and ambiguity, potential software mistranslations can result in a higher degree of inaccuracy and resultant confusion of meaning. Because the WUDP is a public document, it is desirable to make it accessible and readable to the largest possible audience; therefore, the strategy of partial use of Hawaiian diacritical markings balances the need for linguistic accuracy with public accessibility.

	<b>ACKNOWLEDGEMENTS</b>	
<b>ES</b>	<b>EXECUTIVE SUMMARY</b>	ES 1
<b>PART I</b>	<b>INTRODUCTION AND TECHNICAL APPROACH</b>	1
<b>1.0</b>	<b>REGULATORY FRAMEWORK</b>	3
1.1	State Regulatory Framework	3
1.2	County Regulatory Framework	14
1.3	Other Policy Plan	17
<b>2.0</b>	<b>INTEGRATED PLANNING PROCESS</b>	20
<b>3.0</b>	<b>MANAGEMENT FRAMEWORK</b>	22
3.1	Issues and Concerns	22
3.2	Values and Principles	23
3.3	Planning Objectives	25
<b>4.0</b>	<b>PLANNING SCENARIOS</b>	28
4.1	Population Growth Based Water Demand Scenario	28
4.2	Land Use Full Build-Out Based Water Demand Scenario	28
4.3	Planning for Uncertainty	28
<b>5.0</b>	<b>PHYSICAL SETTING</b>	29
5.1	Climate	29
5.2	Geology	30
5.3	Water Resources	31
5.4	Groundwater Availability	44
5.5	Groundwater Quality	48
5.6	Surface Water Availability	50
<b>6.0</b>	<b>SETTLEMENT PATTERNS AND CULTURAL RESOURCES</b>	57
6.1	Overview of Moku and Ahupua'a	57
6.2	Historical "Big Ag" Water Use	61
<b>7.0</b>	<b>EXISTING LAND USE</b>	66
7.1	State Land Use Plan	66
7.2	Maui Island Plan	66
7.3	State Department of Hawaiian Homelands (DHHL) Land Use Plans	68
<b>8.0</b>	<b>EXISTING WATER USE</b>	70
8.1	Water Use by Type	70
8.2	Water Use by Resource	86
8.2.1	Ground Water	87
8.2.2	Surface Water	89
8.2.3	Recycled Wastewater	94
8.2.4	Rainwater Catchment	96

#	Title	Page
8.2.5	Stormwater Reuse	97
8.2.6	Desalination	97
<b>9.0</b>	<b>FUTURE WATER NEEDS</b>	99
9.1	Land Use Based Full Build-Out Water Demand Projections	100
9.2	Population Growth Based Water Demand Projections (20-Year)	104
9.2.1	DHHL Water Demand Projections	110
9.2.2	MDWS Water Demand Projections	113
9.2.3	Privately Owned Public Water Systems Demand Projections	116
9.2.4	Other Population Based Demand Projections	116
9.3	Population Growth Based Demand – Agricultural Demand Projections	117
9.4	Population Growth Based Demand – Drought Scenario	132
9.5	Population Growth Based Demand – Climate Change Scenario	133
<b>PART II</b>	<b>WATER RESOURCE MANAGEMENT, STRATEGIES AND RECOMMENDATIONS</b>	134
<b>10.0</b>	<b>OVERVIEW</b>	135
10.1	Relation to Management Framework	135
10.2	Ka Pa’akai Analysis	135
10.3	Water Supply Sustainability	147
10.4	Water Quality	148
<b>11.0</b>	<b>WATER RESOURCE ADEQUACY</b>	148
11.1	Conventional Water Source Availability and Uncertainties	148
11.2	Alternative Water Source Availability and Uncertainties	154
11.3	Land Use Based Full Build-Out Demand Projections	159
11.4	Population Growth Based Water Demand Projections	159
11.5	Agricultural Demand Projections	160
11.6	Drought Scenario Demand Projections	161
11.7	Source Capacity Projections	162
<b>12.0</b>	<b>STRATEGIES</b>	163
12.1	Resource Management	164
12.2	Conservation	176
12.3	Conventional Water Source Strategies	203
12.4	Alternative Water Source Strategies	218
12.5	Land Use Controls	223
<b>13.0</b>	<b>SUMMARY OF RECOMMENDATIONS</b>	225
13.1	Planning Objective Conflicts and Recommended Tradeoffs	225
13.2	Implementation and Funding	226
<b>PART III</b>	<b>REGIONAL PLANS</b>	
<b>14.0</b>	<b>WAILUKU AQUIFER SECTOR AREA</b>
